***Allowable Subject Matter***

1. Claims 1-7, 16-18 and 20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements:

the method and system for monitoring a first database comprising a full view and a micro-monitor view where the micro-monitor view is smaller than the full view and the micro-monitor view displays a description of the error, a time and date for the error, and a number representing the first database and comprises a configuration mechanism to select the mapping of content between the full view and the micro-monitor view as recited in claims 1 and 16.

Although Ding et al. and Screen Dumps of Microsoft Word teach a substantial amount of the claimed matters, Ding et al. and Screen Dumps of Microsoft Word fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
